

1. Front light
2. Parking light
3. Front and side indicator connector
4. Alternator
5. Starter
6. Thermometer signal transmitter
7. Thermometer switch for electric motor
8. Siren
9. Signal transmitter for oil pressure
10. Battery
11. Capacitor
12. Induction coil
13. Distributor
14. Spark plug
15. Electric motor for cooling system
16. An electric fan relay
17. Big clip
18. Fuse box
19. Fuses
20. Indicator signal automat
21. Brake light switch
22. Wiper motor
23. Wiper programmer
24. Electric motor for heating fan
25. The voltage regulator
26. Main light switch
27. Instrument light switch
28. Switch for heating fan
29. Signal operation of the main light (green light)
30. Signal functioning of a long light (blue light)
31. Fuel level indicator
32. Fuel supply signal (red light)
33. Signal functioning turn signal (green light)
34. Measuring Instruments
35. Signal for dangerous engine overheating
36. Insufficient oil pressure signal (red light)
37. Insufficient alternator voltage (red light)
38. Fuel Gauge
39. Indicator switch
40. Head/Long light switch
41. Horn switch
42. Wiper switch
43. Key egnition switch
44. Interior lights
45. The switch on the door of the interior light
46. Tail lights with stop lihgt and turn indicator
47. License plate lamps
48. The luggage compartment light
